EXPERIENCE

EFFORTLESS | FRONTEND DEVELOPER
September 2024-October 2025 | Remote | Full-time

- → **Feature Ownership**: Built interactive core modules and sub-projects from scratch, focusing on clean React state management and fast UI updates.
- → **Premium UX**: Solved complex layout challenges for mobile and desktop, ensuring every module feels premium and accessible on any screen size.

WEBXSTUDIO | FULL STACK DEVELOPER
March 2023-June 2023 | Remote

- → **Full Stack Shipping**: Shipped a complete dashboard using Next.js and Supabase to manage user data and game analytics for multiple clients.
- → **Mobile Apps**: Core contributor to the cross-platform mobile app, using React Native to deliver a smooth and responsive user experience.

PROJECTS

TEXAVOR.COM | AI-ENGINEERED SEO PLATFORM
2026

- → **Performance Engineering**: Optimized the Next.js 16 stack to slash the **Speed Index from 2.9s to 1.2s** (58% faster) and accelerated **LCP by 15%** by migrating heavy Markdown parsing and image processing to the server (SSG/ISR).
- → **Visual Stability**: Eliminated layout shifts by achieving a **perfect 0 CLS** (down from 0.289) through advanced image placeholders and a modular CSS architecture that reduced the global bundle size by 40%.
- → **Agentic SEO**: Built an AI-powered suite that automates keyword research and outlines using agentic workflows, cutting down research-to-publication time significantly.

OPEN SOURCE CONTRIBUTION

CODING AND MAINTAINING | GITHUB

- → **Repository Contributions**: Contributed to numerous repositories in terms of code and documentation, notably including Forem.
- → **Hacktoberfest Participation**: Regularly participated in Hacktoberfest as both a contributor and maintainer.
